

CONTINUUM
LABS

COLLABORATE · PROTOTYPE · ACCELERATE

Bring your toughest mission challenge.
Leave with a working solution.

Continuum Labs is Alpha Omega's collaborative innovation environment. Bring us a problem you're facing today — manual processes, legacy systems, data silos, or compliance burden — and move it from discussion to a working solution **while we're still in the lab together.**

HOW IT WORKS

- | | | |
|---|--------------------------------|--|
| 1 | Bring a challenge | Come with a real operational pain point worth solving. |
| 2 | Co-design the approach | In a collaborative session, we map the problem and shape a solution together. |
| 3 | Build in real time | Our team prototypes on the spot using the Continuum accelerators — progress you can watch take shape. |
| 4 | See a working pilot | Typically within about two weeks, you have a working prototype to evaluate against your real systems and data. |
| 5 | Chart the path to scale | Leave with a clear route from pilot to production. |

Idea → working pilot in ~2 weeks

From first conversation to something you can put in front of stakeholders.

Have a challenge in mind? Bring it to the lab.

Accelerators + Humans = **Solutions**

Speed without substance is just a demo. Continuum Labs pairs Alpha Omega's mission experts — engineers, designers, and domain specialists who deliver for federal agencies — with the Continuum accelerators, a proven combination that compresses months of engineering into days.

CONTINUUM AUTOMATION FRAMEWORK ACCELERATORS

Continuum Labs is where agencies move from challenge to pilot to solution. Leverage AI-driven accelerators within Continuum AF to build, modernize, and secure future-proof systems.

DESIGN

Concept to prototype in hours.

CODE

Modernize legacy code 4X faster.

CONNECT

Migrate your past to your future.

SECURE

Achieve continuous audit readiness.

WHAT THE COMBINATION MEANS FOR YOU

- ✓ **See results in weeks, not quarters** — a working pilot before big commitments.
- ✓ **Lower risk** — validate on your real systems and data before large-scale rollout.
- ✓ **Built for the mission** — secure, audit-ready, and designed to scale.
- ✓ **One accountable partner** — from first prototype to production.

SPEED

85%

 faster

dev time through automated specs, models, and code.

EFFECTIVENESS

99.97%

code conversion accuracy — zero functional defects in production.

 **FAST PATH**
PRE-COMPETED • READILY AWARDBLE • PROTEST INSULATED

Readily awardable through Fast Path

Part of how Alpha Omega accelerates mission delivery — post-competition and readily awardable, so you skip the lengthy procurement cycle. alphaomega.com/fastpath
